BLOOMING BLUSH
COLOR INSPIRATION

Dramatic yet sophisticated, the dreamy shade beautifully brings a cozy character to the room without overpowering it. This perfect harmony gives off a quirky atmosphere and inspires creativity. Experience an escape from the stresses of life with these whimsical colors.

Let your home be a haven with these colors from DAVIES® Bio-Fresh®.

BIO-FRESH+

ANTIBACTERIAL, ODORLESS & STAIN RESISTANT PAINT

DAVIES® Bio-Fresh+ is a water-based, stain resistant premium interior paint. Its ultra-low Volatile Organic Compound (VOC) level emits less pollutants into the air, and has no unpleasant smell which normally comes with ordinary paints. It has a special anti-bacterial formulation that helps inhibit the growth of disease-causing bacteria, and exhibits excellent stain resistance - making common household stains easy to move.

DAVIES® Bio-fresh+ is suitable for interior surfaces.

HONEY OCHRE
COLOR INSPIRATION

Brown is a color which allows other tones around it to shine. This natural tone signifies depth and can amplify the appearance of surfaces. Inject earthiness into a warm color combination to make your home stand out with DAVIES® Sun & Rain.
SR-933
CHOCO BROWN

SR-425
BONE IVORY

SR-482
CLARION YELLOW

DAVIES® Sun & Rain is an odorless self-priming and waterproofing low sheen elastomeric paint. Unlike ordinary elastomeric paint, it utilizes 100% acrylic technology that gives excellent resistance to water and ultraviolet rays—resulting to a more durable and attractive paint finish. It covers hairline cracks due to its high elasticity and gives long-lasting paint protection. DAVIES® Sun & Rain is suitable for exterior and interior concrete walls.

Orange possesses a welcoming vibe which is stimulating and soothing to the emotions. A warm color best suits the social room of your home which is the kitchen. Together with the greyish and brown tone of the wall, it sets a balance with the bright colored pieces. Radiate warmth and happiness by bringing in the energy to your home.

Make a statement with these bold colors from DAVIES® Aqua Gloss-It.

AQUA GLOSS-IT
WATER-BASED QUICK-DRY ENAMEL

DAVIES® Aqua Gloss-it is a high gloss 100% acrylic water-based paint formulated as an alternative to conventional solvent-based alkyd enamels. This latest breakthrough in waterborne paint technology combines the high gloss and smooth finish properties of solvent-based alkyd enamels, along with the fast-drying and environment-friendly features of water-based paints. It dries to a tough and durable finish due to its room temperature cross-linking capability. Ideal for interior & exterior surfaces, such as wood and metal surfaces.

*Colors shown on this page are the closest representation possible. For color accuracy, please refer to the color chips available in DIY and hardware stores, or call (02) 570-7000 for assistance.
DAVIES® Gloss-it is an all-purpose alkyd based paint. It dries fast enough without adversely affecting the film flow and ease of application. It finds wide application in both decorative and protective coatings due to its high gloss, good color retention and outstanding durability. It is suitable for interior surfaces, such as wood and metal surfaces.

*Colors shown on this page are the closest representation possible. For color accuracy, please refer to the color chips available in DIY and hardware stores, or call (02) 570-7000 for assistance.
Blue along with grey, beige and orange adds a sleek contrast into your wall. With different tones of shades throughout the room it creates a stunning color theme that brings in depth and interest. Blue also cools down the temperature of a warm room and brings in a wide illusion, much like the deep blue ocean.

Bring the feeling of excitement into your room with these tones from Davies® Megacryl.

MEGACRYL
100% ACRYLIC LATEX PAINT

DAVIES® Megacryl is a premium 100% acrylic, water-based interior and exterior paint. It is easy to apply, covers well, and provides surfaces with a smooth and even finish. It is highly durable and resists dirt, stains, alkali, water, humidity, algae, mold and mildew growth. DAVIES® Megacryl is suitable for stucco, masonry, plaster, bricks, hollow blocks, all types of boards, and properly primed wood and metal.

**ROOFSHIELD**

100% ACRYLIC GLOSS ROOF PAINT

DAVIES® Roofshield is a 100% acrylic gloss roof paint designed to keep roofs and masonry walls looking good for a longer time. It has excellent resistance to ultraviolet rays and resists chalking, cracking and color fading. It has superb gloss and color stability, good hiding power and creates a highly flexible film. It dries fast, is environmentally friendly, easy to apply and easy to clean up with water.

DAVIES® Roofshield is suitable for galvanized iron sheets, bricks, concrete, hollow blocks and stucco.
*Colors shown on this page are the closest representation possible. For color accuracy, please refer to the color chips available in DIY and hardware stores, or call (02) 570-7000 for assistance.
DAVIES® Elastogel Ultra is a quality elastomeric paint that provides the highest level of dirt pick-up resistance. It dries to a breathable film which prevents moisture accumulation for long-term protection. It possesses excellent elastic recovery and resilience properties that bridge moving cracks without wrinkling. Its permanent flexibility is maintained across a wide range of temperature, and it is primarily suitable for exterior surfaces.

DAVIES® Elastogel Ultra is only available in white but is tintable upon request.
LIQUID-TILE
100% ACRYLIC ALL-WEATHER PROTECTIVE COATING

DAVIES Liquid-Tile is a specialty coating based on the most advanced solvent-based acrylic technology. It possesses good alkali resistance and excellent durability. It is suitable for all exterior and interior concrete, wood, and metal substrates.

DAVIES Liquid-Tile is only available in white but is tintable upon request.
Protect your wood floors and furniture with our line of varnishes and oil wood stain. **DAVIES** offers an array of coating such as Diamante, Polyfloor, and Oil Wood Stain for various types of wood.
**WOOD WORKS**

**DIAMANTE**
**SINGLE COMPONENT POLYURETHANE WOOD VARNISH**

**DAVIES® Diamante** is convenient to use, extremely tough, and provides a mechanical resistant clear film. It is recommended for wood parquet floors and heavy duty furniture pieces for the home and the office.

**POLYFLOOR**
**TWO COMPONENT POLYURETHANE WOOD VARNISH**

**DAVIES® Polyfloor** is a two-pack coating system that dries to a tough and flexible film with exceptional gloss and scratch resistance. It is recommended for wood and parquet floors, heavy duty school and office furniture.

**OIL WOODSTAIN**

**DAVIES® Oil Woodstain** brings out the fresh, warm colors of wooden furniture. When clear coated with **DAVIES® Varnishes**, **DAVIES® Oil Wood Stain** highlights the wood grain, adds freshness and color, and offers protection to interior paneling, furniture, doors, cabinets, and other wood work.

*Colors shown on this page are the closest representation possible. For color accuracy, please refer to the color chips available in DIY and hardware stores, or call (02) 570-7000 for assistance.*
Protect your floors with only the best. The DAVIES® line of floor coatings protects your floors from being damaged by repeated use, as well as scraping, high impact, spillage, and abrasion. Whether it’s a parking lot, an industrial area, or even your floors at home. DAVIES® creates a tough barrier to keep your floors sparkling and good as new.

POWERFLOOR
100% SOLID EPOXY-BASED FLOOR COATING

DAVIES® Powerfloor is a high-solid, heavy duty epoxy floor coating. It forms a tough, smooth, gloss finish that has excellent resistance to abrasion, impact and spillage of solvent, oil, and petrol. It also dilutes acidic and alkaline solution. Ideal for the protection of interior concrete floors.

GETTING STARTED

1. Clear the room from all furniture, and clean the area.
2. Cover exposed surfaces with drop cloths or newspapers to prevent splatters.
3. Use masking tape strips to protect sockets and switches.
4. Protect window frames and woodwork with masking tape and newspaper.
5. Cover floor trim with newspapers or drop cloths and prevent spills.

PREPARING WALLS FOR PAINTING

1. Start by scraping off loose paint with a scraper.
2. Remove popped nails. Repair cracks and uneven crevices with filler.
3. Use sandpaper to smoothen the wall of any rough and uneven spots.
4. Dust and wipe off surfaces to be painted. Make sure that the surfaces are thoroughly dry and clean before painting.
5. To counterbalance any alkali on the walls, use a wall sealer.
PROPER PAINTING TECHNIQUES

1. To prevent your surfaces from being ruined during painting, follow this painting sequence: ceiling, cornices, walls, woodwork, doors, and floor skirtings.

2. If using a brush, dip only a third of the bristles into the paint. Use long, sweeping strokes for painting hard-to-reach areas like edges and corners.

3. A roller gives the best finish when painting walls, and is quickest. Start painting from the wall’s top right-hand corner, using overlapping strokes in an up-down movement.

4. Always let the first coat of paint dry before applying another coat. Drying time for the first coat is indicated on the paint can.

5. Wash all equipment after painting. Use water for emulsion paint and turpentine for oil-based coatings.
CUSTOM COLORS

TRANSFORMING YOUR SPACE IS AS EASY AS 1-2-3!

DAVIES*, the No.1 paint company in colors continues to provide only the best range of products and services suited for everyone’s needs. With the help of DAVIES*, be inspired by the wonders of colors in just a few clicks with the iColor App, turn your color choice conveniently into an actual can of paint with the DAVIES* Color Factory, and paint your way to a room transformation with three easy steps.

STEP 1 CAPTURE DAVIES* iCOLOR APP

Take a photo of your inspiration with the iColor App and find a match from our color collection. Then choose the perfect complementary colors and visualize it in a room. Explore the iColor App’s other helpful features to guide you in finding the perfect paint, and calculating the amount needed for your projects.
